

At Cetis, we're constantly seeking new ways to improve guestroom telephony. Combining European and American style with American engineering, Cetis phones boast the highest standards of quality, durability and innovation.

CORDLESS IP/ANALOG

Outstanding performance, with the freedom to move about the room, for the ultimate in guest mobility. And by utilizing the latest in DECT technology, Cetis cordless telephones won't interfere with common 2.4 GHz WiFi networks, while allowing for up to three remote handset stations per suite.

9600 Series

Our 9600 Series cordless phones feature your choice of VoIP or analog technologies, and come in Black or Ash, with an option of seven coloured inserts and customizable faceplates to perfectly coordinate with your brand.

TS9600 IP Cordless Touchscreen

The TS9600's flexible, web-based interface allows you to load more content and more applications, including images, audio and video. Certified for: DECT 6.0-1.9GHz, International DECT 1.8GHz, Asia DCT 2.4 GHz.

9600 IP

SIP compliant (check CetisGroup.com for latest certifications). IAX2-ready. Dual-Port 10/100 switched Ethernet port on base for HSIA, one-touch TouchLite message retrieval included. Matching remote handset kits available. Certified for: DECT 6.0-1.9GHz, International DECT 1.8GHz.

- One-line:** 5 & 10 button speakerphones
- Two-line:** 5 & 10 button speakerphones
- One- and two-line remote:**

One cordless base unit operates up to three remote handset charging stations.

9600 Analog

Beautifully engineered, the 9600 series includes an RJ45 HSIA (High Speed Internet Access) laptop port and one-touch TouchLite® message retrieval. Matching remote handset kits available. Certified for: DECT 6.0-1.9GHz, International DECT 1.8GHz, Asia DCT 2.4 GHz.

- One-line:** 5 & 10 button speakerphones
- Two-line:** 5 & 10 button speakerphones
- One- and two-line remote:** One cordless base unit operates up to three remote handset charging stations.

EC Cordless Series

Created for cruise lines and other properties with limited space, EC Series telephones are amazingly big on features, yet surprisingly small in size. Available in one- or two-line models, in analog or VoIP, EC Series phones feature up to seven guest service keys.

EC-Elite 7 button

AC8210 (DECT 6.0)

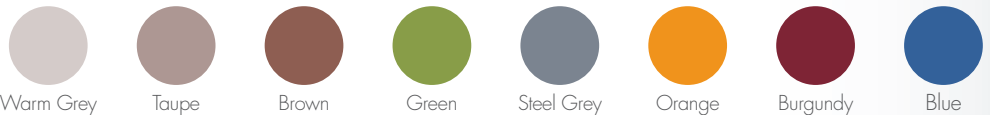

iPhone AC Cordless Series*

Save valuable desktop and nightstand space with the small footprint of the AC Series. Much more than just another telephone, the iPhone AC Cordless Series is the center of your communications universe, built with the same value, service and innovation you've come to expect from Cetis. COMMON AREA IP/ANALOG

Our common area telephones are perfect for mounting on walls, or setting on hall tables in public spaces. With a range of phones with European and American design and engineered in America, Cetis common area telephones are perfect for virtually any room décor or design.

Trimline Phones

Available in single-line and two-line configurations to suit your needs. Like all Cetis telephones, our common area models are built to exacting standards, and provide the best build quality available.

3300TRM

The 3300 TRM features dial keys on handset, recall and last-number redial keys, and a large message-waiting lamp. One- and two-line models, ideal for common areas, lobbies, bathrooms and elevator landings.

3300TRM-IP

The 3300 TRM-IP is SIP compliant (check CetisGroup.com for latest certifications), with dial keys and LCD screen on base, recall and last-number redial keys, and a large message-waiting lamp. One- and two-line models, ideal for common areas, lobbies, bathrooms and elevator landings.

Trimline Classic

Always a favorite, the classic Trimline Series is ideal for common areas, lobbies, bathrooms and elevator landings. Dial keys on handset, recall and last-number redial keys, large message-waiting lamp.

iPhone Trimline

One- and two-line models, RJ11 data port included. Ideal for common areas, lobbies, bathrooms and elevator landings.

Opal Trimline

One- or two-line models, RJ11 data port included. Ideal for common areas, lobbies, bathrooms and elevator landings.

Emergency Phones

Be Prepared. Cetis emergency telephones help prepare your facility to meet the communications needs of staff and customers when time matters most. Available in Aegis-LBE-09, Aegis-LBE-08 and red 2500 wall and desk sets.

Series Lobby Phones

All Cetis model lines offer a matching direct-dial lobby telephone model. By lifting the receiver, the guest is instantly transferred to the front desk.

CLASSICS: 2500/2554

Single line desk and wall phones, designed for the most demanding environments. Data port included on most models, optional message light.

WIRELESS

With our new ExpressNet® AirLink, adding a high-speed wireless Internet connection to your property's existing phone system is as easy as adding and configuring an ExpressNet AirLink device to the bottom of your Teledex telephone.

AirLink

- Combines multiple high speed interfaces in one compact guestroom device
- Wireless bridge provides convenient interface for users that aren't wireless enabled, or prefer a wired connection because of security concerns
- Easily deploy new hotspots almost instantly; no new cabling required
- Guarantees your guests will get online whether they're wireless enabled or not

VSDL Switch

12-port VSDL switches deliver high-speed connectivity in a wide range of demanding environments, including hotels, airports and convention centers.

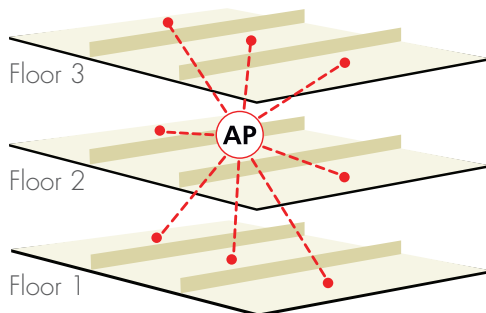

- Supports line power and bandwidth control
- Two-band QAM modulation
- Delivers up to 15 Mbps to each endpoint on the network (to 4,000 ft.), using standard phone wiring (CAT 2/3)
- Adjustable RF output

Wireless Access Point

To deploy WiFi access in a typical hotel, AirLink wireless access points are installed in approximately every four to six rooms, usually on alternating floors. Each access point serves rooms in its vicinity on the same floor, as well as rooms above and below.

- IEEE 802.11g compliant, up to 54 Mbps
- Adjustable RF output allows range to vary from 12.5% to 100% to decrease interference

Wall Mount Access Point

Conserve desk and counter space while eliminating messy wires with convenient wall mount kit.
