IN ROOM SAFES

Easy safes provide the most absolute simple use

✓ USE.

Your guests are going to be able to protect their valuables – conveniently and without having to take a key with them. Guests simply program in their personal code, and the locks are then moved by motor. When a new guest arrives in the room and programs his new code with the safe openend, the previous code is automatically deleted.

- ✓ **EMERGENCY OPENING.** If a guest forgets his code, or leaves the safe locked after checking out, or if any system failure occurs, your hotel has the MASTER CODE for EMERGENCY OPENING. The emergency lock is hidden by a removable magnet cover able to be customized with the logo brand
