Internal LEDS

## Features

- ✓ Motorized opening system by 3 to 6 digits user code
- ✓ Keypad with LED lighting program code
- ✓ Acoustic indicators and leds especially designed to improve its use by disabled persons
- ✓ Manual key override for emergency openings
- ✓ Handheld unit + code or only the code for emergency openings
- ✓ Audit trail reporting function identifying all safe openings and closings executed printed by a compact printer connected to safe or by a handheld unit.

## Construction and finishing

- ✓ Solid carbon steel construction
- ✓ Ultra reliable 2 chromed steel bolts of 20 mm. diameter
- ✓ **Great opening hinges** to ease the laptop entry
- ✓ Elegant anti-corrosion paint
- ✓ Interior carpet
- ✓ Anchor points and fixing bolts for floor or wall mounting
- ✓ 4 alkaline batteries AA included

✓ **USE.**

Your guests are going to be able to protect their valuables conveniently and without having to take a key with them. Guests simply program in their personal code, and the locks are then moved by motor. When a new guest arrives in the room and programs his new code with the safe opened, the previous code is automatically deleted.

✓ **EMERGENCY OPENING.**

**Mechanical** emergency opening by a key using a hidden lock, and **Electronic** emergency opening by master code or multi function handheld unit with a private password, connected to system by USB.

✓ **AUDIT TRAIL FUNCTION, operated by:**

---**Mini-printer** connected to safe. This option, save in memory the last 200 events (openings and closings) made with user code, master, handheld unit and emergency key. All events are listed with exact time and date

or

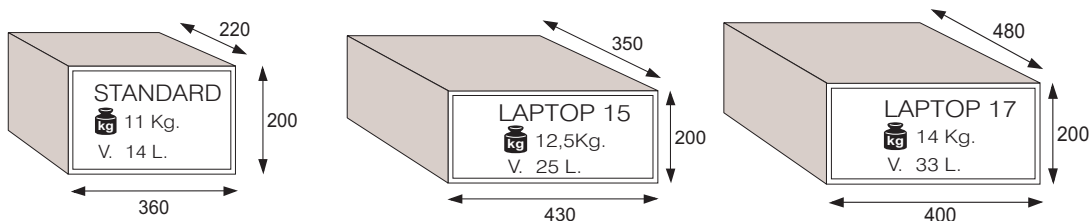

---**Handheld unit** saving in memory all safe openings and closings executed

The handheld unit is also used as:

- . Power outlet when low batteries
- . Electronic emergency opening with a password
